October 10, 2012

MIT Faculty Club – Dining Room 5
MIT Campus, Cambridge, Ma.

Each new day brings evidence of the challenges and risks that business and our society face. The evidence comes in many forms – natural disasters, quality failures, labor action, terrorist attacks, supplier failures, industrial accidents. The result is increasingly significant and wide reaching in scope. Businesses are therefore called to deal with these risks proactively to put in place measures that will mitigate the impacts and protect their ability to maintain their business operations.

Recognizing the importance of proactively managing risks in supply chains, the [MIT Center for Transportation and Logistics \(CTL\) Supply Chain Exchange](#) in conjunction with the [Supply Chain Risk Leadership Council \(SCRLC\)](#) will host a symposium to explore the frontier of supply chain risk management entitled “Advancing Supply Chain Risk Management: Emerging Challenges and Strategies” on October 10, 2012 at the MIT Faculty Club. The agenda is set to cover a range of topics, including ways to visualize and map a supply chain, continuity and crisis management, and emerging supply chain risks. The SCRLC’s recent publication, [SCRM: A Compilation of Best Practices](#) serves as a foundation for SC Risk Management and a useful reference for this symposium. Each session is intended to encourage audience interaction and to elicit feedback from the supply chain community at large. A panel discussion will explore the topics of most interest to those in attendance.

This symposium will bring together senior executives and thought-leaders from industry along with MIT to identify the current challenges and outline the state-of-art risk management practices.

FAQs

[What is the cost of this conference?](#)
[Where is the conference being held?](#)
[When does the conference officially begin and end?](#)
[Are accommodations provided?](#)
[Where should I stay?](#)
[Where is the nearest airport?](#)
[What is the best way to travel from the airport to the course?](#)

What is the cost of this conference?

This conference will be free of charge.

Where is the conference being held?

The conference will be held at the MIT Faculty Club - Dining Room 5, located at 50 Memorial Drive (building E52). You can locate building E52 by using MIT’s interactive [campus map](#).

When does the course officially begin and end?

Conference check-in and informal networking will begin at 8:00 a.m. on Wednesday, October 10, and adjourn at approximately 5:00 p.m. When booking your return flight, take into consideration the following recommendations for travel time and security checks at Logan: [allow two hours for a domestic flight and three hours for an international flight](#).

Are accommodations provided?

No, each person is responsible for his/her own accommodations.

Where should I stay?

Guests are responsible for their own hotel accommodations. We do not have a block of rooms reserved. However, the hotel property most conveniently located to the campus is the Marriott Cambridge Boston.
